

DS Fiduciaire – Renewal of Accreditation as an Audit Expert

This recognition commits us to the next five years.

Given that the Federal Audit Oversight Authority (ASR) has tightened its requirements for obtaining and renewing audit expert certification, we are particularly proud to have met all the necessary criteria and to have our certification renewed for the next five years.

Beyond the accreditation itself, this recognition reaffirms our ongoing commitment to quality, competence, and professionalism in carrying out our mandates.

This allows us to continue supporting our clients—and prospective clients—with their various audit and review needs, including:

- limited audits
- routine audits
- special and one-time engagements
- specific audits and other audit engagements

We thank our customers for their trust and are pleased to continue our commitment to them for years to come.

Do you have an audit or review need, or a specific situation you'd like to discuss?

Our team is here to assist you and work with you to determine the best solution for your needs.
